EDUCATION

Noida Institute of Engineering & Technology (NIET)

2025 – 2029

Bachelor of Technology – Computer Science & Engineering (AI & ML) | CGPA: 8.74 (First Year) Greater Noida, India

TECHNICAL SKILLS

Languages: C++, C, JavaScript, HTML, CSS

Frontend: React, Tailwind CSS, Vite, Responsive Web Design

Backend & Database: Firebase, Firebase Firestore, REST APIs

Developer Tools: Git, GitHub, VS Code, Netlify, Render, Vercel

Currently Exploring: AI Agents, LLMs, Agentic AI, Automation, Prompt Engineering

Core CS: Data Structures & Algorithms, OOP, Problem Solving, Time & Space Complexity

PROJECTS

KisanMind SmartFarmOS | React, Firebase, Gemini API, Tailwind CSS

- **Engineered** an AI-powered agriculture platform integrating five specialized agents — Weather, Disease Detection, Market Intelligence, Codex Assistant, and Evaluation — to support farmer decision-making.
- **Implemented** Hindi voice support and Firebase Authentication to expand accessibility for regional users.
- **Built** a real-time, offline-ready database architecture using Firebase for reliable field-level access.

AI Disaster Agent | React, AI/LLM Integration

- **Developed** an AI assistant delivering real-time disaster guidance and emergency information through a conversational interface.
- **Designed** an emergency-assistance workflow with a clean, responsive UI optimized for fast access during crises.

Salesforce Clone | HTML, CSS, JavaScript

- **Built** a pixel-perfect, mobile-first clone of the Salesforce landing page with a fully responsive, modern layout.

Netflix Clone & Tic Tac Toe Game | HTML, CSS, JavaScript

- **Created** a responsive Netflix landing-page clone and an interactive Tic Tac Toe game, both with polished, mobile-first UI.

LEADERSHIP — FOUNDER, LAUNCHBYTE

- **Founded** and lead LaunchByte, a student-run tech community helping members discover hackathons, internships, ambassador programs, and AI tools.
- **Organized** technical workshops and hackathon collaborations, and built partnerships with student communities and companies.
- **Designed** community branding, growth strategy, and content strategy that drove member engagement and platform adoption.

ACHIEVEMENTS & CERTIFICATIONS

- **Solved 300+** DSA problems on LeetCode; currently progressing through the Striver A2Z Sheet.
- Selected as **Hackathon Ambassador** and **Gemini Student Ambassador**; applicant for Microsoft Learn Student Ambassador.
- Participated in multiple national-level hackathons, building and shipping real-world web applications.
- **Certifications:** Google Cloud – Introduction to Generative AI, Microsoft Certifications, EY Certification, GeeksforGeeks Full Stack Web Development, LinkedIn Learning.
